HONDURAS

LEARNING VISIT

Join us for a week-long visit to the Honduras Macuelizo program, which is implemented by Church World Service and local partner CASM. We will meet with Church World Service staff and travel to the program area in the department of Santa Barbara to visit with the families and farmers that participate in the program.

DATES:

November 5th-12th, 2022

This program promotes natural resource protection and implements conservation practices to improve agricultural production and mitigate the effects of climate change. This program also promotes crop diversification to improve diet, nutrition, and income. Local alliances are formed with a wide variety of groups that help to strengthen food chains, organize advocacy efforts that promote the rights of children, and reduce violence in the communities.

APPROXIMATE COST

\$2,000 per person including airfare, in-country travel, lodging, and meals.

SIGN UP DEADLINE

September 9th, 2022
