

MEXICO LEARNING VISIT

JULY 9th-14th, 2023

Join Growing Hope Globally for a 6-day visit to the Mexico Chiapas Ocosingo program, which is implemented by Mennonite Central Committee and local partner IESII (Institute of Intercultural Studies and Research). We will meet with local staff and travel to the program area near San Cristobal de Las Casas to visit with the families and farmers who participate in the program.

Working with indigenous communities in the Central and High regions of Chiapas, Mexico, this program works to increase and diversify organic food production for family consumption, expand water management and access options, and improve soil fertility through training, practical workshops, and inter-community exchanges.

APPROXIMATE COST

\$1,500 per person including airfare, in-country travel, lodging, and meals. Scholarships available for individuals under the age of 40.

SIGN UP DEADLINE

June 2nd, 2023
