

HONDURAS

LEARNING VISIT

FEBRUARY 21-27, 2027

We will visit the Growing Hope Globally supported agricultural development program in the Santa Bárbara region of Honduras during this week-long fast-paced visit.

Activities include learning from local partner staff, farm visits, discussions & meals with participating families, meetings with local associations, and a recreational day at Copán Archaeological Park.

HONDURAS MACUELIZO

This program, implemented by Church World Service and local partner, CASM, works to promote agricultural production under a sustainable farming approach, increase the protection of forested areas and watersheds, expand access to healthy food, and generate income through the sale of surplus crops. The program also forms local alliances with a wide variety of groups that help to strengthen food chains, increase access to water, organize advocacy efforts that promote the rights of children, and reduce violence in the communities.

Program activities are centered around three strategic components: food security, nutrition, and family agriculture; natural resource management and climate change adaptation; and citizenship strengthening and human rights.

APPROXIMATE COST

\$180 per day, plus airfare. Scholarships may be available.

SIGN UP DEADLINE

December 14th, 2026
